Mrs. Eva Carver Foresees Little Rise in Coop Prices

There will be few price-hikes in Coop food and beverage items this quarter—at least temporarily, Mrs. Eva Carver, Coop manager indicates.

"Naturally, with rising costs everywhere, we probably will have to make price changes before long," she said. "We're already paying higher prices for several commodities. As our food expenditures increase, we may have to up prices accordingly. The changes should be slight, however."

Despite the upward trend of essential food prices, the Coop's menu virtually is the same as last quarter. Salad, raised from 35 to 40 cents, represents the only price raise thus far.

The Coop, located in the basement of the Student Union, presents 11½ hours of service daily, 7 a.m. to 6:30 p.m. Special student dinners are served from 5:30 to 6:30 o'clock in the evening.

SJS Professor Joins Service

O. Allen Israelsen, assistant professor of engineering at San Jose State college, reports today for active duty at Norton Air Force Base near San Bernardino. He holds the rank of major in the Air Corps reserve.

Major Israelsen, who saw action in the Air Corps during World War II, was assigned to duty with the Inspector General's department. He will be in the office of the Technical Inspector in the Directorate of Flying Safety.

The major was graduated from Utah State Agricultural college in 1940 and received his Master of Science degree in 1947 from the University of Utah. He joined the San Jose State college faculty in September of that year. A leave of absence from his teaching duties has been granted him by the college.

ASB Court Fines 20 Campus Clubs

Twenty campus organizations were adjudged guilty of violating an ASB by-law last month by the Student Court.

Their mutual offense was tardiness in filing membership lists with ASB numbers five weeks ago.

Ruled guilty as charged and fined were:

Engineering Society, La Torre, Lyke, Mu Phi Epsilon, Phi Mu, Alpha Pi Omega Pi, Psi Chi, Sigma Delta Pi.

Academic Scholars, Alpha Delta, Der Duesche Verein, Epsilon Mu Pi, Epsilon Mu Gamma, Forestry club, Key club, Pan American club, Pi Sigma Chi, Pre-legal club, Radio Amateurs club, State Flying club.

Leg Contest Ends

More than 100 students have entered the "Plastic Leg" contest now being held in the Spartan Book store. The contest, in which contestants try to guess the number of Chesterfield cigarettes in a model plastic leg, closes at 5:30 p.m. today, according to Contest Chairmen Bill Simons and Lee Hayes.

Army Reserve Officer Visits Next Tuesday

Young men from 18 to 35 interested in enlisting in the United States Army Reserve Corps will have an opportunity Tuesday, Jan. 9, to obtain complete information concerning such enlistments. Col. Frank W. Silsley of San Jose will be in S112 from 3:30 to 5 p.m. to explain the advantages of joining one of the several Reserve Corps units already in existence here.

250 Recruits Needed

These units, which include infantry, artillery, engineers, military police, ordnance and signal, need an additional 250 men to bring them up to full cadre strength, Col. Silsley announces.

Recruits may select the unit they wish to join and are required to attend only two drills a month, for which they are paid \$2.75 each. With the exception of the infantry unit, the groups do not engage in drill but are instructed in each special subject for which the group is being trained.

Reserves Won't Be Drafted

Because they have become a part of the military establishment by enlisting in the Reserves, these men are not subject to being drafted by Selective Service. Col. Silsley believes that the units will not be called to active duty until complete mobilization occurs, in which case the men will be sent to a camp for intensive training and then returned to the unit which would be increased to full strength.

College men interested in attending Tuesday afternoon's meeting are asked to leave their names in the office of Dean of Men Stanley C. Benz in order that the number of those interested may be ascertained.

Council to Meet

Initial meeting of the Student Council for the winter quarter will be held Tuesday afternoon in the Student Union, Dave Down, ASB president, announced yesterday.

The session, which begins at 3:45 o'clock, will feature discussion of preliminary plans for the new quarter, Down said.

Hershey Proposes Fewer Deferments

Selective Service Director Lewis Hershey has made known the recommendations he will put before Congress this month.

Should the proposals be approved by the legislature, college students will be hit first unless they are in the top third of their class. Under the present law, students are eligible for deferment if they are in the upper half.

According to Drew Pearson, Washington columnist, Hershey will make the following recommendations:

1. The draft age be lowered to 18 with the maximum age remaining at 25.

2. Deferment of enlistees in organized reserves and national guard be stopped.

3. Draft eligibles be taken in this order: first, all un-married college students except the top third of their class; second, married non-veterans without children; third, un-married veterans; and last, non-veterans with children.

Dean of Men Stanley Benz has information on postponements and deferments under the present system. Dean Benz notified students earlier this week that they should obtain a deferment or postponement if they haven't already done so.

French Honor Society Will Stage Moliere Satire Jan. 11, 12, and 13

Members of Iota Delta Phi, French honor society at Washington Square, will make their initial attempt at presenting a classical play to a Spartan audience with Moliere's satire, "Le Malade Imaginaire", in the Little Theater at 8 p.m., Jan. 11, 12, and 13.

The play satirizes the medical profession as it existed during the time of Moliere. The entire production will be presented in the French language.

Dr. Goddard in Title Role

Dr. Wesley Goddard, assistant professor of modern language at SJS, will play the title role of

Rally Committee Plans Winter Fun

Outline of plans for winter quarter rally entertainment will be the main business at the Rally committee meeting next Wednesday night, Ed Mosher, Rally committee chairman, revealed.

The meeting, first of the new quarter, will begin at 7:30 p.m. in Room 24.

Argan. Dr. Goddard was instrumental in organizing Iota Delta Phi at San Jose State college several years ago, and has maintained an active interest in the group

DR. WESLEY GODDARD

Registration Down 1086 In Year; Fewer Vets

According to figures computed by Mr. Glen Guttormsen of the Business office, 6314 students have enrolled for winter quarter at San Jose State college, as of Wednesday night.

The State college has 3793 non-veterans registered and 1591 veterans. Enrolled in junior college are 811 non-veterans and 119 veterans. Final results of total registration figures will be made Monday.

MISS VIOLA PALMER

There is a total of 1710 veterans registered this quarter in both state and junior college, compared with 1880 attending last quarter and 2642 in winter quarter 1950.

During autumn quarter there was a total of 7041 students in attendance at San Jose State college. State college had 5904 registrants and junior college 1137.

There has been a decline of 1086 students in the last year. Winter quarter 1950 there were 6530 enrolled in state college and 870 enrolled in junior college, totaling 7400.

The total registrations for this quarter are the lowest since spring 1948, when there was a total of 6062 students registered. Of the 6062 registered in spring 1948, veterans comprised almost half of that figure. There were 2957 veterans in attendance then.

Today is the last day for late registration. Final figures on the total registration for this quarter will not be available until next week.

The figures on veterans registered for this quarter include only those attending on either the California State Education Bill or the G.I. Bill.

WAC Officer Visits Campus

Capt. Marion R. Biddle, WAC procurement officer for California, will interview senior and graduate women students interested in the WAC officer program, this afternoon between 2 and 5 o'clock in the conference room of the Women's gym, according to Col. James J. Hea of the college ROTC unit.

Applicants selected for the program will be assigned to Officer Candidate school upon graduation from college. Following graduation from OCS, the individual will be commissioned in either the Regular Army or the Army reserve.

Colonel Hea listed some of the qualifications necessary for applicants: a college degree by June 1951; 21 to 26 years old; U.S. citizenship, and unmarried.

Spartan Cagers To Return Sunday

Students are urged to meet the returning San Jose State college basketball team Sunday evening at the San Francisco Municipal Airport.

Danny Hill, athletic news director, announced yesterday that Coach Walt McPherson and crew are scheduled to land at the United Airlines terminal at 8:55 p.m.

The travel-weary squad leaves St. Paul, home of Hamline university, late Sunday morning.

The Weather

The new weatherman and his buddy "?" (pronounced question mark) take over the column today. "?" is the fair weather bird who hangs around the Daily office most of the day annoying the hard working staff.

He predicts fair weather for today with the temperature ranging from 54-58 degrees.

SJS to Host Speech Meet

San Jose State college plays host to the January meeting of the Bay Area Roundtable of colleges and universities tonight in the Student Union and Library. Mr. W. F. Luick, director of forensics at SJS, will moderate the opening period. Students, faculty members, and the public are invited, according to Luick.

The Roundtable will discuss the question: "What should be the responsibility of the Federal Government for the health of the people of the United States?"

Delegates to the Roundtable from San Jose State college will be Kathryn Sproul, Nancy Thomas, Meradel Vaughan, and Herb Lister. San Jose State students who will act as chairmen are Sam Datri, Leslie Groshong, John Mix, and Robert Whitall.

Co-rec to Meet

The Co-rec club will meet today at 11:30 a.m. in its new office in the Women's gym. Co-chairman Edna Thompson urges committee members and all interested persons to attend and help in planning this quarter's program.

It's in the Cards

Addition of two more cards to the registration booklet left many students moaning, but indications are that the new additions have had their fling, and won't be back next quarter.

Long, buff cards greeted Spartan registrants as they left the Reserve book room, and the meeting usually was not welcomed. Smaller, white survey cards also were passed out.

The longer cards were instigated by Dean of Men Stanley Benz, who will put them in his personal file. Dean Benz often receives calls from friends, parents and possible employers who request information on individual Spartans. The cards will be a valuable addition to the Dean's office.

Many students, however, objected to filling out the boxed record of college activities on one side. "I can't even remember what I did fall quarter," one senior said, "without having to list all my activities from my freshman year."

The white activity cards were conceived by Dean Benz to aid fraternities and sororities in finding prospective members.

The yellow cards, hereafter, will be given only to new students. It is not certain whether the white cards will be used again.

It's a Problem

Receipt of a letter recently by the San Jose City Council, which complained that several Spartan men are creating mud puddles by washing their cars in front of a local girls' dormitory, certainly proves that there still are some people who do not consider the Korean War and Senator Joe McCarthy the only things worth worrying about.

In her letter to the Council, the housemother of a Fifth street women's hall charged that the college boys next door park their cars for wash jobs in front of the hall, leaving mud puddles in their wake.

Intending to consider the problem at its Jan. 2 meeting, the City Council just could not get around to it. They investigated lighting on The Alameda, bus line price raises, wage increases for city employees, and Alviso flood control problems. But, try as they did, the councilmen would not tangle with the mud puddle enigma.

Maybe the Council would prefer talking about Korea or Senator McCarthy. Possibly the lawmakers refuse to recognize the college's monumental problems. One thing's for sure. Something—something, mind you, has to be done.

Missed the Boat

It had to happen!

For years, the presiding registrar would pull out the old crystal ball the week before registration and peer intently. Then, with a swirl and a flourish, he or she accurately would predict the exact number of students who would sign up the coming quarter.

But alas, 1951 portends of unusual things, for the registrar has missed the winter quarter sign-up by almost 700. Some dirty-dealing legislature has-bared the law of averages, and it has proved embarrassing.

The registrar's miscalculation is ominous of something. We hope it's only a broken crystal ball.

THRUST and PARRY

Here's the Reason!

Dear Thrust and Parry:

Guido Pastorino's letter in the Dec. 20 Spartan Daily raises a question about the Women's gymnasium addition which is "easily answered. He wonders why that building was given priority over several others that appear to be much more urgently needed.

The answer is to be found in the fact that land on the present campus was available for the gymnasium addition whereas it was not available until very recently for the new Music and Engineering buildings. The Speech building is also to be erected on Washington Square and if it were not for this fact its construction would probably be long delayed.

Funds for construction of the additions to the Science building and the Library are to be included

in the 1951-52 state budget and these projects may be started before other new buildings which are planned for the expanded area of the campus.

Lowell C. Pratt,
Director of Public Relations.

HUNTERS MUST SHOOT

OGDEN, Utah (UP)—Walt Summers claims he's proved his point that hunters will shoot at anything, anywhere. During the pheasant season, Summers took his stuffed pheasant from his house and perched it on a fence post. At the end of an eight-hour stretch, the stuffed bird had been blown to bits. Summers estimated that more than 50 hunters took shots at it.

Just Among Ourselves

By Dr. T. W. MacQuarrie

Why thirteen weeks in the autumn quarter, eleven in the winter, and twelve in the spring?

Several reasons:

We are required to have full 36 weeks in the college year, and that would ordinarily mean three quarters of twelve weeks each, but there are other considerations.

It takes about a week for the registrar to process the grades between quarters, and that makes it desirable to use the Christmas holidays for one of those periods—two birds, you know.

Neither is it good to start too late in the fall. The latter part of September is about right, but with a twelve week quarter, that forces a three week Christmas vacation, too much. Also in the fall there are three holidays, and that together with the confusion of getting started, football, fraternities, Homecoming, etc., make it seem desirable to have the long quarter then.

If we had two full quarters and the spring vacation, twenty-five weeks, after Christmas, it would run us into the latter part of June and that would interfere with summer employment in the canneries. It would also throw the Summer Session so late that many public school teachers could not attend.

We have tried all sorts of arrangements, but this 13-11-12 seems to be the answer.

Spartans Sleep Six Years Every Night

Did you lose sleep over finals?

A few hours sleep may not seem very significant to you, but have you ever considered what could be accomplished during the 4800 hours which Spartans collectively sleep every night?

At an average of five hours to read a book, a person could read 960 books. He could complete his reading for his school career in one night.

The hours spread over a period of time would amount to 2000 days or six years.

If a person could get away with it, he could collect \$6240 in unemployment checks.

A student could get an A.B. degree and perhaps an M.A. degree during this time. With June 15 so far away, the idea certainly has merit.

College students average two dates a week. A person could have at least 625 dates during this time.

Dates cost money, so sleep peacefully. Those "40 winks" are saving the individual over \$3000 which he might be squandering on wine, women, and song.

SYNCOATING HEN

ALMADEN, Spain (UP)—Farmer Antonio Alado disclosed that one of his hens seems out of tune with the rest of his chickens. This one, according to Alado, lays two eggs at a time at three day intervals. She's been doing it for a month.

Washington Squares

"Did you happen to see a bar of chocolate laxative sittin' here?"

Dr. Alden Sees Need For Religious Study

By BORIS STANKEVICH

"There is practically no real social life at San Jose State college."

Dr. Donald H. Alden, associate professor of English, leaned back in a comfortable chair and studied the opposite wall of his office. He carefully weighed this statement which he had just made.

"The lack of religious education in the life of the average modern college student leaves him confused. This usually leads to a desperate search for entertaining activity."

Although he was reared a Presbyterian Dr. Alden does not identify himself with any church at present. During almost 20 years of teaching he has taken advantage of his position to observe the extent of the religious education of his students.

These observations plus a lifetime of study directly or indirectly connected with the fields of religion and philosophy have given him some definite views concerning the lack of religious training of the present generation. He believes that this lack of training has put young people in a dangerous situation.

Dr. Alden does not put the blame entirely on the present generation or their parents. According to him, the churches also are at fault.

"Many of the present day church policies tend to put too much emphasis on either the spiritual or social side of church life. Some students substitute the social activities of the church for religion, while the spiritual type finds himself in a vacuum and can't connect out-of-this-world theories with his everyday life."

Dr. Alden feels that lack of religious education tends to make the student feel that he must rely upon himself for an answer to all material and spiritual problems. In many cases he turns to communism, fatalism, optimism and other "isms" in order to answer these problems. In his opinion the stu-

dent then tries to reconcile problems which these individual philosophies fail to explain by sheer will power or avoiding the problem all together.

The astute professor definitely believes that lack of religious education is a threat of democracy.

Sororities Stress Panhellenic Rules For New Rushees

With the commencement of winter quarter, sorority rushing season is in full swing. Panhellenic council has requested the Spartan Daily to remind prospective rushees that between now and the time when pledges are chosen, sorority and non-sorority girls are limited to ordinary campus and boarding house relations.

One of the practices the council frowns upon is double dating, when one of the girls is a member of a campus Greek organization and one of the girls is not. Panhellenic wishes to stress that no interference with friendships is intended, but some regulation of relations during the formal probationary period is necessary and is customary on campuses throughout the nation.

Evelyn McCurdy, president of Panhellenic, states that the local council places no restriction upon the rushing of junior college girls, but many of the national sororities on campus do.

Sororities which can rush girls not registered for a four year course are Alpha Omicron Pi, Alpha Phi, Chi Omega, and Sigma Kappa. Organizations which cannot rush junior college girls are Alpha Chi Omega, Delta Gamma, Delta Zeta, Gamma Phi Beta, Kappa Alpha Theta, and Kappa Kappa Gamma.

Stanford Village Is Scene of Nuptials For Staggs-Crabb

Recent additions to the ranks of Spartan newlyweds are Coy Staggs and June Crabb. They were married at the Village chapel in Stanford village and are now at home in San Jose.

The former Miss Crabb is the daughter of Mrs. J. A. Crabb of Palo Alto. She was graduated from Punahou school in Honolulu before coming to San Jose.

Her husband is the son of J. O. Staggs of Madera. He is a past president of Phi Sigma Kappa fraternity and a member of Blue Key service fraternity.

For her wedding the bride chose white slipper satin styled with long sleeves, a fitted bodice, and a bouffant skirt. A coronet of seed pearls secured her fingertip veil. Gardenias and bouvardia formed the bridal bouquet.

Mrs. Frank Thompson took the role of honor attendant. Joanne Parker and Merri Sauble were bridesmaids. The three were gowned identically in aqua taffeta and carried nosegays of violets and salmon-colored carnations.

James Thomsen stood with the benedict as best man. Scott Chestnutt and Joe Thomason seated the guests. Steven Staggs acted as his step-brother's ring bearer. Following the ceremony the newlyweds greeted guests at a reception in the Marie Antoinette hotel.

Wm. Russell Weds Pat Dyer In San Leandro

Christmas vacation was the time chosen for the nuptial exchanges of Pat Dyer and William Russell, both San Jose State college students.

Miss Dyer, the daughter of Mr. and Mrs. Cyrus M. Dyer of San Leandro, was escorted to the altar of the Bancroft avenue Baptist church, San Leandro, by her father. Mrs. Ralph Jones, sister of the bride, was matron of honor.

White satin and nylon were chosen by the bride for her gown, and she donned a coronet of white carnations from which a shoulder-length veil fell. Her bridal bouquet was of forget-me-nots, white carnations, and begonias.

Mrs. Jones chose for her gown, one of turquoise satin, and she wore a Juliet cap.

Little David and Susan Jones, nephew and niece of the bride, were ringbearer and flower girl, respectively.

Charles Erb, fraternity brother of the bridegroom, was best man. Marvin Braunstein, Ralph Jones, and Sage Morris were ushers.

Following the ceremony, a reception was held at the Alta Mira club from which the new Mr. and Mrs. Russell departed to an undisclosed destination for their honeymoon.

Now at home in Menlo Park, Russell is awaiting orders from the army. He was a December graduate from the college. A member of Theta Chi fraternity, the benedict carried a commerce major. He is the son of Mr. and Mrs. William Russell of San Carlos.

The bride was a junior advertising major at San Jose State college and served on the Spartan Daily ad staff. She was a member of a national campus sorority and the Order of the Golden Shovel.

Richard S. Smith, Betty Walls Wed

Now living in Miami, Fla., is Richard S. Smith and his bride, the former Betty Lou Walls, daughter of Mrs. Connie E. Walls, Sr. The couple were married at a double ring ceremony in West Virginia. A reception followed.

Smith is an alumnus of Los Gatos high school and attended San Jose State college. He was president of Pi Delta Kappa fraternity. The bride was graduated from Lewisburg High and St. Mary's School of Nursing.

Two Engagements Told in One Night

Well nurtured on chocolates were girls belonging to one national campus sorority recently when two members, Pat Howe and Sally Hart, revealed their respective engagements in one evening. Miss Howe's fiancé is Jim Jefferies; Miss Hart will marry Wilber Gost.

The first romantic revelation came during the dinner hour when Miss Howe passed the traditional box of goodies. Her future husband is now with the United States Navy, and wedding plans are indefinite. Miss Howe, a junior social science major, is the daughter of Mr. and Mrs. Raymond A. Howe of Palo Alto. Jefferies is the son of Mrs. Pearl Jefferies also of that city.

Later in the evening at a house meeting another box of chocolates was passed. Several of the sisters sang, "So Long, Sal" and Miss

Friday, January 5, 1951

SPARTAN DAILY 3

Social Side

Hart revealed her romantic news. The daughter of Mr. and Mrs. Charles Hart of Sacramento, the future bride is a senior kindergarten primary major. Her fiancé is a graduate of the University of California at Berkeley.

Syracuse Paper Lists Gift Book Selection Ideas

(The following article, in parts, was "lifted" from the Syracuse university paper and was written by Dee Caruso and Gene Rosi.)

If you are having trouble buying gifts here are some suggestions:

EDUCATIONAL BOOKS FOR THE MALE COLLEGE STUDENT: "You Don't Have to Worry if You're 2a" or "GI Joe, AB".

This book has many interesting chapters:

I. Fallacy of Deck Jobs: This chapter is devoted to the two-million troops drafted into the Army in the last war who thought they were sure bets for the 50 office jobs in the US Army advertisements. These men were certain they would spend the duration of the war doing paper work. As it turned out the only paper work they did was writing letters home from the front.

II. Basic Training: This is a surprisingly short chapter much of which is contained in the next chapter.

How to Dig Fox Holes

III. Combat Under Fire: This chapter is chiefly concerned with the art of foxhole digging. It deals with the choosing of the site, plumbing installations, interior decorating, and planting of victory gardens.

IV. Occupation Troops: This chapter includes a section on how to avoid occupational diseases. It also describes how to effect closer relations with the inhabitants. For instance, statistics show that in the last world war (let's see, that was number two) in Italy alone 340,000 cigarettes were sent to our forces and only two per cent of these were smoked by our troops.

What Happened to the Fags?

This leads us to believe one or two things: either we had the world's largest army of non-smokers or that throat irritation is becoming a national trait among the Italian female population.

V. Plans are being formulated to publish a supplementary final chapter if conditions should warrant it. This pamphlet will be entitled: "Conversational Russian."

A BOOK FOR THE YOUNG COLLEGE CO-ED: "Problems of the War Bride," by Eva Braun.

NOVELS FOR THE KID-DIES: "Alcohol and Narcotics as Escape Mechanisms." This book is particularly popular with high-strung children and contains a complete list of opium dens and gin mills frequented by the kindergarten set. Another favorite: "Five Little Oedipuses and How They Grew."

Watch for These Books

Thrilling historical autobiographies which serve as an inspiration for the young introvert are: "Dillinger, Boy and Man," "The Capone Boys at College," "Benedit Arnold: Soldier of Fortune,"

New Draft Plan Is Unfair To Many Men

The proposed plan to defer students from the draft on the basis of their aptitude and intelligence tests is unfair to many persons, according to the Indiana State college newspaper.

Its main objections are:

1. Deferment by an IQ test would allow some persons to drift through school to avoid the draft.
2. The plan stipulates that the graduate must have an "essential job" in his field in a "short period," or he will be eligible for the draft for the number of years he was deferred for his study. This would be grossly unfair to a student studying for a profession, such as law or medicine.

3. Prospective employers might not hire the graduate, since they would not know for sure whether theirs was an essential job and would not be certain that the graduate would be completely exempt from the draft.

The deferment in its simplicity of operation, is still the best. It allows students who work and progress in their education to be deferred to complete their training but weeds out any persons who do not produce and who enter school merely to dodge the draft.

and "Why I Left the Stage" by John Wilkes Booth.

LIST OF APPROPRIATE BOOKS:

HST — "The Art of Cordial Letter-Writing" by Joe Hanley.
Ernest Hemingway — "The Sun Also Rises" by Ernest Hemingway.
A. B. (Happy) Chandler — "The Senator was in Da Street."
Notre Dame — "Winning Football" by Frank Leahy.
Margaret Truman — "Why I Left the Stage" by John Wilkes Booth.
General MacArthur — "How to Decorate the Christmas Tree," and "Popular Beachwear."

Draft Affects Other Colleges, Coeds in AWC

By ALAN LONG

The draft situation seems to be affecting other colleges, too. Wilson Compton, president of Washington State college, speaking before a student audience, urged the prospective draftees to "try to carry on if you can." Robert Taylor, chief registrar of CCNY, estimates that 4545 of the 7810 full-time male students at City College of New York will be in the armed forces by next September.

On the feminine side of the military situation, the military department at Syracuse university is offering assistance to co-eds interested in obtaining appointments as commissioned officers in the WAC.

The date bureau, Campus Contacts, at Syracuse university, was forced to close shop because of a lack of "student interest and enthusiasm." Initiators of the program blame the failure of the bureau on the fact that most co-

eds attached a social stigma to the system and hesitated to sign up for that reason.

The editor of the Arizona State college paper commented on a poem appearing in an issue of the paper: "Columnist Morz hopped out of bed at dawn and penned his poem. We call this 'going from bed to verse.'"

Resourceful chemistry students at USF beat the high price of Christmas trees by making one of their own. The tree consisted of dichlorofluorescein, bromine water, copper ammonia complex, methul-orange, and potassium permanganate. To the uninitiated, all that technical verbiage means the ma-

terials used in making the colors, which are yellow, red, blue, orange, and violet.

Who says he can "out-argue" a woman? Mary Louise Kiefer, senior law student at Syracuse university, won the prize for the best performance at the Senior Moot court exhibition in competition with six male students.

Campus Interviews on Cigarette Tests

Number 10...THE PANDA

The sudden rash of quick-trick cigarette tests

may have caused panda-monium on the campus — but our scholarly

friend was unperturbed. He pondered the facts of the case and decided that

one-puff or one-sniff tests . . . single inhale and exhale comparisons are hardly

conclusive. Proof of cigarette mildness doesn't come that fast!

And that's exactly why we suggest . . .

The sensible test — the 30-Day Camel Mildness Test

which simply asks you to try Camels as your steady

smoke — on a pack after pack, day after day basis. No snap

judgments needed. After you've enjoyed Camels —

and only Camels — for 30 days in your "T-Zone"

(T for Throat, T for Taste), we believe you'll know why . . .

**More People Smoke Camels
than any other cigarette!**

We specialize in fine and delicate
garments. Formals — Blouses
Sweaters — Knit Suits.

'30' Club Will Plan San Francisco Trip

Members of the "30" club, journalism organization for editorial majors, will meet in Room B94 Tuesday at 7:30 p.m., according to Glenn Brown, club president.

The proposed field trip to the San Francisco Chronicle building or the American Weekly plant in San Francisco will be discussed.

More social activities and field trips than the group has had on its agenda before are the goal of this year's officers, according to Brown.

The field trip to San Francisco will be the first activity of the club this quarter.

The Hall of Fame of great Americans was established in 1906 on the campus of New York University.

Meetings

Relief Committee: Meeting tonight in Room 10 at 7:30 p.m.

IRE: Business meeting today, S210 at 11:30 a.m.

"30" Club: Meet Tuesday 7 p.m. in B94 for important business discussion.

WAA Fencing and Fencing Club: Meet Tuesday 7 p.m. in Women's gym. All interested students are invited.

Badminton Fans: WAA badminton will start as soon as gym is available. Watch for announcements.

Seekers: Party Friday, 7:30 p.m. at First Methodist church. Everyone welcome.

Seekers: Meeting Sunday, 7:30 p.m. at First Methodist church.

Soph Class Council: Meeting Monday in Room 17 at 3:30 p.m. Soph Hop will be discussed.

Alpha Delta Sigma: Members please sign La Torre photo schedule for Jan. 9, in Spartan Daily office and pick up appointment cards immediately.

Social Affairs Committee: Meet Monday at 3:30.

WAA Bowling: Sign up for

Luick Slates Meeting Time For Speakers

The meeting time for Intercollegiate Forensics for this quarter has been set for 1:30 to 2:45 p.m. Tuesday and Thursday afternoons, in Room H34, according to Mr. Wilbur F. Luick, speech instructor.

The group's first meeting was held yesterday afternoon. "Today is the last day to add this course," Mr. Luick said.

ASB members may participate on a credit or extra-curricular, non-credit basis. If a student wishes credit for the activity in his program, he should register for Speech 55 or 155. High school or college experience in debate, discussion, activities, and individual speech events is desirable, but not required. If a student has had Speech 2B, 2C, 51-151 or 52-152, the foundation work will be helpful preparation for intercollegiate debate and discussion.

bowling in Women's gym or meet in the gym Friday at 12:30 p.m.

Student Court: Meeting Friday at 3:30 p.m. in the Student Union.

Ski Club: Skiing at the Cal Lodge this weekend. Reservations are not necessary. Rates including meals and lodging will be \$6 for Friday on or \$4 from Saturday afternoon.

Thespians to Try Wings in 'Flies'

Two tryout periods open to all SJSC students are scheduled to select the cast for Sartre's modern French drama "Flies" which will be presented March 1, 2, 3, 5, and 6, according to Dr. James Clancy, associate professor of speech.

Fifteen speaking parts will be filled at the tryouts which will be this afternoon and Monday afternoon at 4:30 in the college Little Theater.

Mr. Theodore Balgooyen of the Speech department faculty, emphasized that all students are eligible for the trials.

COW TAKES IT IN STRIDE

TRENTON, Neb. (UP)—Stanley Cox, 21, will have more respect for cows from now on. In a collision with a cow on the highway near here his car incurred damage to the left front fender, grill, radiator and hood. The car had to be towed in. The cow just shook herself and strolled away.

Civilians can serve

Your local United States Army Reserve offers you—young men 17 to 34 and young women 18 to 34—many opportunities.

In joining the Enlisted Reserve Corps, you may choose the branch of service which you desire and for which you are qualified. Vacancies exist in all grades and in all specialties.

You may enlist in the grade held at time of separation from the Regular Army, provided you have had active service for any period since 16 September 1940. Men and women without prior service may enlist in noncommissioned officer grades provided they possess technical skills needed in the Enlisted Reserve Corps. The time for decision is now!

You will be paid at the rate of one-thirtieth of the monthly basic pay of your grade for each paid drill period attended. Most units are authorized two paid drill periods each month.

Build a retirement annuity in your spare time! Yes, members of the Enlisted Reserve Corps may earn retirement credits solely thru Reserve duty training. After 20 years of satisfactory service in the Regular and Reserve forces, you may begin to draw retirement benefits at the age of 60.

You will have full opportunity to receive promotions to any rank for which you qualify! You may also qualify for appointment as a commissioned officer.

Do not delay! Send now for more information about the important benefits your local Army Reserve Unit offers you!

ORC Unit Instructor

Spartan Cagers Succumb To Beloit College, 86-57

Locals Meet Hamline Tomorrow in St. Paul

Forward Ron Bontemps bucketed 33 points to lead the hoop-happy Beloit Buccaneers to a convincing 86-57 win over the touring Spartans of San Jose State college at Beloit, Wis., last night. It was the fourth straight defeat dealt the Spartans on their eastern swing.

Coach Walt McPherson's cagers conclude their tour in St. Paul, Minn., tomorrow evening when they face the perennially powerful Hamline Pipers.

Roof Falls In

In last night's game, the lads from the dairy state held a slim 36-28 halftime lead, but exploded early in the second half and led the locals by 61-41 halfway through the final half. The Beloit bucket brigade tallied 50 points in the wild second half.

The Bucs made 20 consecutive free throws and 24 out of 28 charity attempts. Bontemps tallied his 33 points on 13 straight free tosses and 10 two-pointers. The midwesterners also were deadeyes from the floor, making good on 40 per cent of their shots.

George Clark was the Golden Raiders top point producer. The local pivot ace bagged 15 markers, his top performance for the season. It was the uncanny free throw accuracy of the Beloit team which led to the San Jose downfall.

Rugged Trip

It was the seventh win in nine starts for the Dolph Stanley coached Wisconsinites and the sixth loss in 11 skirmishes for the home brews. Beloit won six in a row, then dropped two in succession to the race-horse thundering herd from Marshall college and to powerful Eastern Kentucky last week.

Palace Ducats Now Available

Tickets for the San Jose State-Santa Clara basketball game set for the Cow Palace Saturday, Jan. 13, go on sale this afternoon at 1 o'clock at the Graduate Manager's office, Room 16.

Students may purchase tickets for 50c upon presentation of their ASB cards.

According to Jerry Vroom, athletic manager, a deadline definitely will be maintained, Wednesday, Jan. 10, at 5 p.m. is the final time for ticket purchases.

Ski Season Opens At Soda Springs Next Week-end

The San Jose State Ski club opens its 1951 season at Soda Springs Jan. 13-14.

Arrangements for 45 members to stay at the Cisco Lodge have been completed, Bill Cancilla, president of the club, announced yesterday. Reservations can be made at the Graduate Manager's office with a \$1 down payment until 5 p.m. Monday. Lodging and two meals will cost members \$4.

The remaining Spartan skiers will stay at Alfineers Lodge. The rates for this lodge are \$7 for Friday and Saturday nights including meals. This must be paid in advance at the club meeting in the Student Union at 7:30 Tuesday night.

Cancilla added that there will be movies and dancing at the meeting. A \$2 initiation fee and an ASB card are the only requisites for membership in the club. Openings for new members will last another week only.

Wilson Heads Winter Term Athletic Influx

Vern Wilson, the nation's outstanding high school high jumper last year, headed a winter quarter enrollment of classy track and field prospects at San Jose State college this week.

Wilson transferred from the University of Oregon and thus will not be eligible to represent San Jose State college until January of 1952. He recorded a mark of 6 ft. 5 1/4 in. in the Berkeley regional meet for the state CIF trackfest held at Sacramento. He tied for first at 6 ft. 2 in. in the finals.

The ex-San Jose high school ace also is considered a good basketball prospect, having led the cross-campus prep team to a tie for the Peninsula Athletic league cage title in 1950.

Other spike stars who enrolled for the winter quarter include Herman Wyatt, a 6 ft. 5 in. high jumper for Compton college; Bob McMullen, distance runner from Santa Rosa junior college; Phil Hatzepillar, sprinter from San Mateo junior college; Pete Edmonson, Menlo junior college high jumper; Paul Dennis, hurdler from Glendale college; and Skip Hill, a sprinter from Lincoln high school of San Jose.

Wyatt, McMullen and Dennis were among the best of the national junior college trackmen in their respective events. Hill, a freshman, was one of the top sprinters of the PAL during his stint at Lincoln.

Colorado's Kenny Koop and San Jose's George Clark are shown scrambling for the ball in the recent 49-47 Spartan victory. Spartans Chuck Crampton and Bill Wilson move in to help Clark, while Bob Enzensperger of the locals and the Buff's Bill Clay look on.

Beck Is High in NCAB Figures

The National College Athletic Bureau released its 1950 edition of the official football statistics Dec. 19 and evidence was found among the countless columns of figures that San Jose State's Harry Beck was one of the most under-rated backs on the coast last season.

Beck, a 187-lb. fullback, led the coast in yards gained per carry with a 6.97 average. This was also the fifth best average in the nation, and among fullbacks, the third best.

In gaining 830 yards in 119 carries, Beck finished 21st in the nation. Hugh McElhenny of Washington led the coast in this department with 1107 yards. He was followed by California's Johnny Olszewski, Loyola's George Musacco, and Beck.

SJS finished in the top 20 in the nation in pass defense, allowing an average of only 84.2 yards

per game.
By recovering 25 of the opponents' fumbles, SJS finished sixth in the nation in the "opponents' fumbles recovered" department.

Placement Director Reports Many Jobs Open in Future

Job possibilities in three fields are in the offing for San Jose State college students, Miss Doris Robinson, Placement director, announced yesterday.

Secondary teaching examinations for the San Francisco school district will be given Feb. 17. Applications for these teaching positions must be filed with the college Placement office before Friday, Jan. 19, Miss Robinson said. Students should visit the Placement office for full details.

A representative from Douglas

Aircraft of Santa Monica will be on campus, Thursday, Jan. 11, to interview pre-June graduates in engineering, physics and mathematics. Several jobs are available in the airplane industry to all who can qualify.

Montgomery Ward will send a personnel interviewer here Tuesday, Jan. 16, for business majors interested in retailing. Applicants must be graduated no later than June.

Five Students May Become '2nd Looies'

Five San Jose State college men have been made eligible for commissions in the regular Army, according to an announcement from Col. James J. Hea, head of the SJS ROTC department.

The students, whose second lieutenant's commissions become effective June 15, 1951, are: Harry E. Carlsen, Vernon D. Johnson, Stanley J. Lobodinski, Jr., Vernon D. Rogers and Byron H. Russell, Jr.

These men are attached to the Military Police unit of the Army ROTC and bring the number of graduates in the department receiving army commissions to 10.

The final appointments are subject to approval of the United States Senate, the passing of satisfactory physical examinations and successful completion of college.

M. Owen Atkinson Gets Full-time Job

Appointment of M. Owen Atkinson to the position of full-time journalism instructor was announced last week by Dr. Dwight Bentel, head of the Journalism department.

Atkinson, former part-time instructor in magazine article writing and Lyke staff adviser, will offer two new courses: newspaper advertising for journalism majors and a course in public relations under the Social Science department.

Possessing a wide background of professional experience, Atkinson's magazine article writing courses have proved valuable already to many SJS students who have sold articles to magazines. As an example Ray Hasse, Spartan Daily photo editor recently sold an article to Modern Photography magazine.

SJS Engineers to Move To Bible Building Soon

The San Jose Bible college building, 306 S. Fifth street, will not be taken over by San Jose State college until approximately Jan. 20 rather than Jan. 1 as previously announced, according to Byron J. Bollinger, superintendent of buildings and grounds.

"The new buildings for the Bible college still have a few finishing touches to be made before they will be ready for occupancy. The SJS Engineering department will move into the building just as soon as it is available," Bollinger said.

The building will house all of the offices of the college Engineering department as soon as the college is able to occupy it.

Floor plan of the building allows for one large lecture room, six offices, and three small storage rooms. Two of the offices and two of the storage rooms will be

on the upper floor of the building. Members of the college maintenance staff spent a part of the vacation period getting the building ready for occupancy despite the fact that it is still being used by the Bible college. Preparation included cleaning and painting of the walls and woodwork.

Americans, at one time or another, have won Nobel prizes in all award categories—physics, chemistry, medicine and physiology, literature, and peace.
